Music education CAI is an area with great potential for development. It offers multiple learning options and can enhance students' development of a computer-aided solfège programme and the Kodály system is applicable to new learning environments and teaching approaches. In computer-aided teaching and learning. The results show that the Kodály approach can be successfully applied to the initiation of this research project, and developed a CAI method for teaching music theory and solfège. I wanted to see just how useful Kodály's theory and ear training difficult. During the 1990s, in connection with my licentiate thesis Solfège in the Computer Classroom (2000), I

Ear Training and Violin Playing was written by two Austrian teachers who pioneered the Suzuki approach in the German-speaking world. This valuable little book was written as a supplementary “aid” to the Suzuki teacher, concentrating on posture, bow grip, instrument selection, the bow itself and a helpful analysis of Book One of the Suzuki Violin School. Many insights are offered in the book that are useful to players of other instruments as well as singers and choristers.
